

Eileen White MPH, BSN, RN

Eileen went to the University of Notre Dame and majored in Sociology, graduating in 2003. After working in mental health, she went on to graduate school at IU School of Medicine's Department of Public Health (now Fairbanks School of Public Health), graduating with an MPH in Epidemiology in 2007.

After working at Eli Lilly in Global Patient Safety and realizing she wanted and needed a clinical background to better understand and make public health program changes, Eileen went on to IU School of Nursing, graduating with a BSN in 2011. She combined clinical and public health as Chief Nurse Consultant and Epidemiologist at ISDH in Genomics and Newborn screening. She went on to Regenstrief before moving to Chicago, where she worked in clinical pharmacy data at Walgreens clinical office. She then moved to Minnesota where she managed the stroke and cardiac systems of care at the Minnesota Department of Health working in policy and program management and clinical program development. After moving back to Indiana in 2018, Eileen recently worked at Fishers Health Department as an epidemiologist. She now works as a freelancer in public health, keeping a page on Facebook called *Pubic Health is Your Job, Too* reviewing public health and clinical information and research related to COVID, and educating the public on what is valid evidence an data, and the need to make decisions based on data and not politics.
